

STONEGATE HOMES

Company Staff: 4

Years in business: 25

of homes built to date: 300

Describe yourself in a few sentences: As a hands-on builder, I pride myself in being on-site and on-call to guarantee that our clients will not only be getting a great home of great value in the end, but that they will have the opportunity to enjoy the homebuilding experience along the way, and continue to enjoy it as they reflect back in years to come. Paul, his wife Christy and their 3 boys are proud Grove residents.

What is your favorite aspect of homebuilding? My favorite aspect is working with our customers who are involved in the building process. We specialize in and

consider our team experts in the personal experience.

Why did you want to become a Signature Builder at The Grove? The developer has been consistent with what he said he was going to build. The developer promised amenities and has far exceeded my expectations so much that I call The Grove.

Which Grove home are you most proud of and why? They are all so different, I can't pick just one. I am very proud of them all.

What are your hobbies outside of homebuilding? Well, with three boys, we stay busy. From coaching their sports teams and a little golf here and there, we enjoy watching the Tennessee Volunteers.
